EXPERIENCE

Front -end Web Developer

Creative Tech Mars   **September 2022 – Present, Hyderabad**

· Developed responsive and user-friendly web interfaces using HTML5, CSS3, JavaScript, and frameworks like React.js.
· Designed and developed a responsive hospitality platform user-centric approach.
· Utilized React.js for front-end development, ensuring seamless user experiences and interactive UI components.
· Implemented responsive design principles using HTML5, CSS3 (including Tailwind CSS), and JavaScript to optimize user interaction across devices.

PROJECTS

Job Website

· Developed a Job web application using React.js as the front-end framework.
· Implemented features such as user authentication, job listing, filtering by location and category, and job application submission.
· Ensured responsive design and cross-browser compatibility using HTML5, CSS3 (including Tailwind CSS), and JavaScript.

Hospitality

· Designed and developed a responsive hospitality platform inspired by Airbnb's user-centric approach.
· Implemented features such as property listings, user profiles, search and filtering options, booking functionality, and integration with payment gateways.
· Utilized React.js for front-end development, ensuring seamless user experiences and interactive UI components.
· Implemented responsive design principles using HTML5, CSS3 (including Tailwind CSS), and JavaScript to optimize user interaction across devices.
